

After Cilajet was applied to his 1969 Lotus, JAY LENO says:
 "It looks terrific! It actually does look amazing. [The car] looks a lot better. It's visibly different. I hope it shows up on camera. [Cilajet] is an impressive product!"

 Protects against oxidation, fading, pollution and water spotting.
 Reduces frequency of washing.

Aluminum,
 Chrome
 & Alloy Wheels

WHEEL ENHANCEMENT

Cilajet can be applied to chrome, aluminum or alloy wheels helping to prevent corrosion and resist brake dust build up, keeping your wheels clean & shiny!

Why Cilajet?

Cilajet is a micro-thin sealant developed specifically for commercial aircraft. It has been tested and proven to resist contaminants adhering to the paint, and to protect metal surfaces against corrosion.

Cilajet products are hypoallergenic & environmentally friendly.

Cilajet guarantees to keep your RV's paint protected from most environmental conditions such as UV rays, bird droppings, acid rain, tree sap and hard mineral deposits.

Cilajet helps keep your RV cleaner longer, gives it a mirror-like finish, and keeps it looking shiny and showroom new for years to come!

Conforms to Boeing Specification D6-17487 Rev.T
 and Airbus Specification AIMS 09-00-002
 (ISSUE 3) For Use on Commercial Aircraft

 Easy carpet and upholstery cleanup.

HIDE by Cilajet
 Conditions and protects your leather and vinyl surfaces from drying, fading and discoloration.

Warranty Coverage
 You Won't Get From
 Your Vehicle Manufacturer!

Charlotte Jet, North Carolina

"I have been detailing cars and jets for about 12 years now, and I have never seen a product like Cilajet. After one of our jets would spend two weeks traveling in Florida, for example, I would have to polish the bright work to remove salt and mineral deposits with an abrasive two or three times to get it clean. Now with Cilajet, I simply wipe it off with a damp cloth. Because of Cilajet, I have reduced my cleaning time by at least half!"

"Also, we always detail our customers' vehicles when they fly out in our jets. They always want their cars and jets to shine like new, and thanks to Cilajet, we accomplish that. They notice immediately how much better their cars look since we have been using Cilajet. The paint stays glossier, the wheels stay cleaner, it takes less time to wash them, and I don't have to wax them anymore."

"When you understand how Cilajet protects a jet flying in temperatures from 60 below to over 100 degrees, imagine the protection it gives your car! Cilajet is the best product I have ever used ... It is truly amazing!"
